

This is a periodic general news and announcements email from the SFO Airport/Community Roundtable. This is designed to give Roundtable representatives and interested individuals updates between the Roundtable's meetings, as well as share the latest in aviation noise related news locally and from around the world. You are receiving this because you are either a Roundtable representative, staff, interested party, or expressed interest in receiving updates from the Roundtable.

Announcements

Next Roundtable Meeting - August 3, 2016

We want to thank all those who attended and participated at our last Technical Working Group meeting in Daly City. At that meeting, it was determined that additional time was needed to finish preparing the FAA response, but also give Roundtable members and the public adequate time to review the document. As such, the special meeting scheduled for Monday, June 27, 2016 was canceled. The Roundtable will be ready to present and discuss the response document at their next scheduled regular meeting on **Wednesday, August 3, 2016 at 7pm**. The meeting location will be at the Roundtable's regular location at the [SFO Community Room 5, Phases 1 & 2](#). Agendas and meeting packets will be available the

week before the meeting.

Aviation Noise News

[SFO Details New Enhancements to Improve On-Time Performance](#)

SFO provided a briefing to the San Francisco Airport Commission regarding new procedures and new technologies designed to improve the airport's on-time performance. Airport staff also announced plans to host a demonstration of a new Global Positioning System (GPS) landing system in August, offering further on-time gains.
